Usein Akbar

Jakarta, Indonesia | https://www.linkedin.com/in/usein-akbar-896379206/ | useinakbar01@gmail.com

I am a Front-End Developer with several years of experience in developing web applications. I have the ability to develop responsive and interactive applications, represent UI design in code, integrate data from APIs, and collaborate between members of the product development team. Overall, I am a dedicated and passionate front-end developer who is always looking to improve my skills and deliver high-quality applications using the latest technologies such as Javascript and it's framework.

Education

Telkom University

Information System • 2020 - 2024
